Reviewer: Vaibhav Shekhar Dave

Score: 91

Comments

Did not achieve 85 percent coverage in testing which did not allow them to merge the base code of server and other documents which were a part of their sprint goals to master.
Good work on managing JIRA tickets
Everyone contributed to the code base and work is divided equally
Scrum master has a very good understanding of individual's ability
Have good planning for the future sprints as well

Things to improve upon would be regularly notifying the client(TA) about your progress.
